

H.G. Makelim Co.

Fleet Solutions

Meeting the service needs of the fleet industry

Fleet managers are facing pressure to increase their equipment's up time, reduce expenses and source environmentally friendly products. Today's fleets require a single-source distributor that meets your demand for quality products while offering competitive pricing, technical service and support.

H.G. Makelim Co. is a leading provider of diesel fuel injection systems, rotating electrical products and turbochargers throughout the Western United States. We represent many of the world's leading providers of power solutions including Bosch, Denso, Delco, Leece Neville, Garrett and many other quality engine component manufacturers and rebuilders.

With our knowledgeable customer service staff, extensive inventory and technical support, you can be assured your equipment will remain on the road and running efficiently.

Providing Power Solutions Since 1922

H.G. Makelim Co. is comprised of a team of experienced professionals working toward these common goals:

- To Offer You Product Selection, Availability and a Single-Source Solution
- To Provide You With Outstanding Customer and Technical Support

Product Selection and a Single-Source Solution

We are committed to understanding your business and service challenges. We supply a variety of power products including industrial engines, diesel fuel injection systems, test equipment, rotating electrical, turbochargers and generator sets to meet your power solution needs.

With our extensive inventory, skilled customer service staff, convenient 24/7 online ordering system, and four locations across the Western United States, H.G. Makelim Co. can supply you with the products you need, when you need them.

Customer Service and Technical Support

A dedicated and knowledgeable H.G. Makelim Co. representative will be assigned to your account and assist you with finding the appropriate power solutions for your business. In addition, your company will have access to our training programs ensuring your staff is always up-to-date on the latest product applications.
